

Also, can you provide us with any statistics on our pilot area and the entire city of Milwaukee starting January of 2009 to date so we can continue to track the incidents of illegal graffiti? We are interested in any statistics that show the amount of illegal graffiti in various areas in the City of Milwaukee, where the hot spots are and specifically the number of calls in our pilot area so we know where to focus our efforts and future projects. We would also like to request this information at the end of the year so we can see the trends and impact of our projects. Also, any statistics you can provide for the last 5 years as far as number of calls, increase/decrease in calls for illegal graffiti removal would be helpful as well for the entire City of Milwaukee.

Thank you for your time,

Sarah Patterson
